800X PRO FEATURES

Power System

Lightweight Power. 198 kg curb weight. 69.5 kW max power. With 0.35 kW per kilogram, the 800X Traverse delivers sharp acceleration, confident overtaking, and a strong power-to-weight feel.

Riding Modes - Five Modes, One Versatile Machine

Comfort Mode Smooth and linear power for city rides and long-distance cruising Rain Mode Softer power delivery for better control on wet or slippery roads Sport Mode Sharper response for overtaking, mountain roads, and more spirited riding Off-road Mode Stronger low-end control for loose surfaces and rough trails Custom Mode Adjust power delivery, ABS, and TCS settings to match your own riding style

Rider Interface Ergonomics

20L fuel tank with fuel consumption of 5L/100km, offering over 400 km of range for longer rides with fewer fuel stops USB + Type-C charging ports keep your devices powered on the road 6Ah lithium battery, lightweight and durable 875 mm seat height with 265 mm ground clearance, balancing off-road capability with a proper ADV riding position

Lighting & Smart

Upgraded LED projector headlight module with optimized beam pattern and color temperature for a clearer Automatic headlight and DRL improve visibility in tunnels and low-light conditions
